

CHRIS CHAMBERLIN

Dear Bob,

I wanted to write the following letter of referral below. Feel free to use this testimonial and hope that it serves as a benefit, because you definitely deserve it.

Three years ago, Greg Panzl insisted that if I was serious about becoming a better shooter and competitor, there was 2 things I needed to do. First off was to put my 1911 gun back into the safe and switch to a Glock pistol, and the second was seek out this Bob Vogel guy that lived in Ohio.

Fortunately, I followed Greg's advice on both accounts and I can say without a doubt, investing the time and money in training with Bob has been the best decision I made. There is no amount of ammunition or money spent on equipment that could have helped me improve my shooting as much as training with Bob.

This past shooting season, I was able to win 3 major IDPA matches. While it has taken some serious devotion to training, what I learned from Bob helped make winning these 3 matches possible. I am looking forward to continuing my improvement as a shooter and competitor, and know that I will be utilizing more training with Bob to help make this happen.

For anyone wanting to learn smart and proven techniques to become a better shooter needs to contact Bob. While there are no shortcuts to success, he will show you hands-on and first person how to improve both your fundamentals and performance in match conditions. You will learn and experience what has helped Bob win both National and World Championships. This kind of experience is invaluable.

Wish you continued success, Bob!

Chris Chamberlin
